

BACnet Forum Barcelona 2023

09:00 – 10:00	Arrival	
10:00 – 10:20	Welcome address.	Climent Molins Vicerector UPC Thomas Kurowski President of BACnet Interest Group Europe
	Institutional Presentation UPC.	Climent Molins Vicerector UPC
	EPBD and the importance of integration and digital aspects.	Simone Alessandri Director General de EU.BAC
	HVAC technologies: connectivity, regulation, control and building automation in the energy evolution to decarbonization.	Marta San Roman Directora Asociación, Asociación Fabricantes Equipos Climatización (AFEC)
	Importance of Cybersecurity globally, the Cyber-Resilience Act in Europe and why BACnet/SC is a solution.	Salvatore Cataldi Comité BACnet
11:30	Coffee break	
12:00	How to save energy and solve connectivity issues in commercial buildings.	Pere Mindan Product Engineering Leader HMS Industrial Networks SLU
	Case study LEED-certified logistic plant controlled by BACnet IP/BMS.	José Manuel Morales Director de Ventas Iberia LOYTEC Electronics Lucas Jorge Técnico de sistemas y soporte E-Controls
	CASA ALBEROLA: history turned into a case exclusivity and building technology.	José María Redondo Product Manager LG Electronics
13:30	Lunch break	

14:30	Best practices for installation and expansion of the BACnet MS/TP bus.	Victor Cañete CEO y fundador ADITEL
	Infrastructure at the Generalitat de Catalunya.	Neus Bonet Enginyera Industrial Tècnica Unitat de Telecomandament Divisió de Serveis Energètics i Innovació
	Success case study of BACnet products in Barcelona building.	Carlos Erice Belimo Eduard Calderón Coldeforn Responsable técnico del departamento de Medio ambiente y gestión energética del Hospital German Trias i Pujol de Badalona Jordi Giraldo Garcia Gerente Alding, Integrador de sistemas
	Development of autonomous control systems for Thermal Distribution and Air Conditioning using BACNet communication protocol based on Belimo IoT Sensor Data.	Iu Perramon Ingeniero Energético Adrià Garcia Ingeniero de la Edificación con Master en Ingeniería de la Energía Paci Global
16:00	Coffee break	
16:30	IoT use case study: Easy integration of LoraWan sensors into existing BACnet system.	Daniel Cascante IoT Business Manager MONOLITIC
	Are BACnet and Cloud Solution practical and feasible?	Ignacio Muñoz Santos Sales Manager Kieback&Peter España
	Case study systems integrator developing applications for energy management using BACnet.	Salvatore Cataldi Belimo
18:30	Networking & Tapas
